## PROFESSIONAL SUMMARY

Aspiring Full Stack Java Developer with hands-on experience in Java, JDBC, MySQL, and web technologies (HTML, CSS, JavaScript). Skilled in building scalable applications and database-driven systems. Passionate about software development and problem-solving, with a strong interest in creating efficient and user-friendly applications. I enjoy learning new technologies, exploring real-world challenges, and continuously improving my coding skills through practical projects. Eager to grow as a developer by contributing to innovative solutions and gaining hands-on experience in a dynamic and challenging environment.

## EDUCATION

| <b>AES-256 Cryptography Simulation in Vivado using python</b>   <i>Verilog, Python, Vivado</i>                                                                                                                                                                                                                                                                                                                                                                                                                     | Apr 2026 |
| <ul style="list-style-type: none"><li>Implemented AES-256 encryption and decryption using Verilog modules (SubBytes, ShiftRows, MixColumns, AddRoundKey, Key Expansion) and python used for giving input.</li><li>Focused on behavioral simulation to verify correctness and performance of the cryptographic design.</li><li>Used python for giving input and Vivado for simulation to test the output.</li></ul>                                                                                                 |          |

## TECHNICAL SKILLS

---

**Programming Languages:**Java(OOP) , Python (Basics)  
**Web Technologies:**HTML, CSS, JavaScript, JSP, Servlets  
**Backend Development:**Core Java, JDBC, REST APIs (Basics)  
**Database:**MySQL, Oracle SQL (SQL, Joins, CRUD Operations)  
**Tools:**VS Code, Eclipse  
**Others:**Agile basics

## ACHIEVEMENTS CERTIFICATIONS

---

**Cisco Networking Academy-** Python Essentials  
Learned core Python programming concepts including variables, loops, functions, lists  
**CS50's Web Programming with Python and JavaScript**(Ongoing)  
**Cisco Networking Academy Certification in Modern AI.** (Completed)
